PROFESSIONAL SUMMARY

Currently looking for a junior position in the field of Document Control utilizing my experience in documentation, technical writing and coordination. Continuously gaining valuable experience in the field of engineering and construction. Began my career with documentation management, record-keeping, and operational files as a Document Controller, obtaining essential skills in organization, file management, reporting and documentation processes. Working currently as an Electrician and Site Document Support at a construction firm in Saudi Arabia, where I perform electrical tasks, study engineering drawings, keep technical reports, and coordinate site document control functions. In addition to my current responsibilities, I continuously expand my technical skills with knowledge on how networks operate in real life, practicing in hands-on laboratories such as Cisco Packet Tracer and GNS3. Practical technical skills include VLANs, OSPF routing protocols, GRE tunnels, DHCP snooping, STP and HSRP protocols, and network troubleshooting.

SKILLS

Document Control & Operations: Experienced in document management, EDMS workflows, Aconex, technical documentation, engineering drawings, transmittals, submittals, version control, filing systems, site coordination, SABER platform operations, SASO compliance, and Microsoft Office Suite.

Networking & IT: Hands-on networking lab experience using Cisco Packet Tracer and GNS3 involving VLAN configuration, OSPF routing, GRE tunnels, DHCP Snooping, STP, HSRP, and network troubleshooting.

Programming & Web: Basic knowledge of HTML, JavaScript, and Python with experience developing and deploying responsive portfolio websites using GitHub Pages.

AI & Digital Tools: Experienced with Prompt Engineering, LLMs, AI-assisted research, and AI productivity tools for documentation, workflow support, and technical learning. Integrating

Technical Support: Practical experience in electrical maintenance, preventive maintenance, troubleshooting, technical reporting, and site documentation support.

EDUCATION

Diploma in Business Administration | 2026

BSc in Social Science | Feni University, Bangladesh | 2025

Higher Secondary Certificate (HSC) in Science | Chowmuhani Government College, Bangladesh | 2022

WORK EXPERIENCE

Document Controller | M.H Medicine Shop, Bangladesh | February 2022 – August 2025

- Managed document lifecycle including filing, retrieval, version control, and distribution using structured document management procedures.
- Improved documentation accuracy by 30% through revision tracking and organized filing systems.
- Coordinated transmittals, submittals, approval workflows, and document archiving processes.
- Maintained operational reports and digital documentation using Microsoft Word and Excel.

Electrician and Site Document Support | Saudi Construction Company, Saudi Arabia | September 2025 – Present

- Perform electrical installation, preventive maintenance, and troubleshooting activities for construction site operations.
- Interpret electrical drawings, layouts, and technical diagrams to support site execution and engineering activities.
- Maintain maintenance logs, installation records, technical reports, and handover documentation.
- Coordinate with engineers and supervisors regarding electrical activities, material requirements, and technical documentation.
- Support document submission and approval processes for electrical materials and equipment.

PROJECTS

Portfolio Website | HTML, Python

- Performed networking labs using Cisco Packet Tracer and GNS3 involving VLANs, OSPF, GRE tunnels, DHCP Snooping, STP, HSRP, and network troubleshooting.
- Developed and deployed a responsive portfolio website using GitHub Pages.
