EDUCATION

Diploma in Business Administration | Alison | 2026
Bachelor of Social Science (BSS) — Pass Course| National University, Bangladesh | 2025
Higher Secondary Certificate (HSC) in Science | Chowmuhani Government College, Bangladesh | 2022

WORK EXPERIENCE

Document Controller | M.H Medicine Shop, Bangladesh | February 2022 – August 2025

- I managed and organized invoices, purchase records, supplier docs, and operational files for top-notch record keeping and easy retrieval. Plus, I maintained both digital and physical filing systems to keep things tidy and support daily operations.
- I also prepared daily and weekly reports, updated the records, and helped with management's admin work and data entry.
- Another key task was reviewing and updating inventory docs to match what the business actually needed.
- Finally, I coordinated document handling between suppliers, staff, and management. Archiving old records and organizing systems made everything super accessible and kept admin smooth and efficient.

Cybersecurity & IT Support | Remote | May 2025 – November 2025

- Monitored network traffic and investigated potential security threats using tools such as Wireshark and Nmap.
- Troubleshot hardware, software, Windows/Linux operating systems, and network connectivity issues to support reliable IT operations.
- Assisted with network security, firewall rules, VPN configuration, system updates, and vulnerability assessment.
- Documented technical incidents, troubleshooting procedures, and security findings while applying cybersecurity best practices.

Electrician and Site Document Support | Saudi Construction Company, Saudi Arabia | September 2025 – Present

- Perform electrical installation, preventive maintenance, and troubleshooting activities for construction site operations.
- Interpret electrical drawings, layouts, and technical diagrams to support site execution and engineering activities.
- Maintain maintenance logs, installation records, technical reports, and handover documentation.
- Coordinate with engineers and supervisors regarding electrical activities, material requirements, and technical documentation.
- Support document submission and approval processes for electrical materials and equipment.

PROJECTS

Portfolio Website | HTML, Python

- Performed networking labs using Cisco Packet Tracer and GNS3 involving VLANs, OSPF, GRE tunnels, DHCP Snooping, STP, HSRP, and network troubleshooting.
- Developed and deployed a responsive portfolio website using GitHub Pages.
